

Notification of pesticides for agricultural use

In Belgium, the placing on the market of pesticides for agricultural use is subject to approval by the FPS Public Health, Food Chain Safety and Environment.

For each application for a new authorisation, renewal of authorisation or major composition modification of a plant protection product, the authorisation holder shall compile a dossier for the poison centre. The Plant Protection Products and Fertilizers Service of the FPS Public Health, Safety of the Food Chain and Environment will pass this information on to the Belgian Poison Centre.

Once you have obtained the authorization, you will need to pass the commercial label of the product on to the Belgian Poison Centre.

All applications for approval of pesticides for agricultural use must be submitted to the:

FPS Health, Food Chain Safety and Environment

DG Dier, Plant en Voeding
Dienst Pesticiden en Meststoffen
Eurostation - Bloc II - 7de verdieping
Victor Hortaplein 40/10
